**ALICE WILSON**

### HEGEMONIC LOG(S) AND TWO BENCHES

domobaal plays host to a coming together of sorts. Several protagonists airing a long, drawn-out parlance, each seeking to justify its presence on a platform constructed in a far more functional derivative to the materials of that on top. This detail is not lost on the Matter Facts, some perform as if it were a stage, in others there is a sense of squeamishness, a need to form distance from the associative origin (and destination) of that that is facilitating this public outing.
